Balanced Cattle Feed

Brahmi feed is a revolution for dairy farming. It contains all the essential nutrients in the right balance, which are necessary for proper development of the animal. With use of our feed, dairy farmer get more milk (with more fat) from the animals and make the dairy business more profitable.

Benefits of Brahmi Cattle Feed:

- Early Heat Detection
- Reduces repeat breeding issues
- Maintains animal health and prevents diseases
- Increases milk production
- Enhances fertility
- Maintains body condition
- Easy to digest
- Lessens inter calving period
- Minimizing costs maximizes income
